REPORT OF THE COUNCIL, 1926-27.

THE Council present the report for 1926-27 with feelings of great gratitude to many friends of the medical education of women. In 1926 the hope was expressed that the disturbance caused by the war was almost at an end, and that the School might expect the entry of new students, and consequently the revenue from fees, first to be stable, and then after a few years to rise, as the demand for the services of medical women grew. The first of these two hopes has been realised. The revenue from students' fees for 1926-27 is almost the same as for 1925-26, and the entry of new students has risen from 54 to 62, not a feverish rise, but a rise. Throughout the country, and in particular in the large settlements of new houses in London and the great towns, there is a growing demand for medical women in private practice, and as the School depends on the students, and the number of students depends upon their prospects when qualified, the Council are very much encouraged to receive frequent reports of the successful work carried on by past students.

The Income and Expenditure Account shows a debit balance of £13, which is a great advance on any recent result, and indeed on a total of £39,461 almost represents equilibrium. The figures in the Income and Expenditure Account are swelled this year by large transfers to the Capital Account for the purchase of the freehold of the School site. This purchase has been effected at a cost of £11,020, which was found as to £4,160 by the redemption of two Sinking Fund policies formerly taken out to provide for the termination of the lease in 1977, and as to the balance from money forming part of the Cullimore bequest. By this purchase the School is relieved from the annual Sinking Fund premiums of £305, and from the ground rent of £380, and, a still more welcome relief, from any fear of trouble arising at the end of the lease.

The total number of students in attendance at the School during the Session was 338, including 22 attending at St. Mary's Hospital for clinical studies, and 10 part-time students. Of

this number 270 were registered Internal Students of the University of London.

University of London Examination results during 1926-27 were as follows: 9 former students took the M.D. degree. Thirty-eight students obtained the M.B., B.S. degree. Miss W. A. Ladds obtained Honours in Pathology and Midwifery and Miss F. Louis, Honours in Medicine. Thirty-five students passed the Second Medical, Part II. (Anatomy, Physiology, Pharmacology), being 75 per cent. of those who entered from the School. Thirty-five students passed the Second Medical, Part I. (Organic Chemistry), being 86 per cent. of those who entered. Thirty students passed the First Medical (Biology, Chemistry, Physics), three with distinction, being 75 per cent. of those who entered.

Three former students obtained the M.R.C.P. (Royal College of Physicians London). Fifty-nine students obtained the qualifying Diploma of the Royal Colleges of Physicians and Surgeons of England (L.R.C.P., M.R.C.S.).

Developments at the Royal Free Hospital during the past twelve months have improved the educational facilities of the students. H.M. the Queen graciously opened on February 10th five Children's Wards named after Lord Riddell, the President of the Hospital. Mrs. Hazel Gregory, M.D., M.R.C.P., previously Assistant Physician to the Hospital, has accepted the appointment of Physician in charge of the Children's Department. An Orthopædic Department under Mr. P. Jenner Verrall, F.R.C.S., has been opened, and the Light Department under Dr. C. B. Heald, C.B.E., has been extended. The Council express to the Weekly Board of the Hospital their appreciation of these increased opportunities afforded to the students.

The death of Mr. Alfred Langton, Chairman of the Hospital for many years, has deprived the School of a greatly valued friend and generous benefactor. He showed the warmest interest and sympathy in the Hospital and the School. His munificent gifts to both institutions including his gift in 1915 of land valued at £38,000 adjoining the Hospital, to provide for its enlargement, will be gratefully remembered by medical women.

Dr. Branson's retirement from the Hospital Staff has been a great loss to the School, and the Council express to him their cordial thanks for his interest in the students and their work. Dr. Lancelot Burrell, F.R.C.P., has joined the Staff as Second

Physician. Dr. Neill Hobhouse has been appointed Assistant Physician and undertakes special instruction in Neurology.

At the Annual Meeting of the Association held on October 27th, 1926, the following were elected Members: Miss Janet Aitken, M.D., M.R.C.P., Miss Elizabeth Bolton, M.D., B.S., Mrs. Balfour Duffus, the Viscountess Elveden, C.B.E., Sir John Ferguson, K.B.E. The Rt. Honble. Sir Francis D. Acland has been Chairman of the Council throughout the year. On the resignation of the Rev. M. E. Bisset, M.B.E., one of the representatives of the Weekly Board, Lord Riddell joined the Council. Lady Barrett and Dr. Aitken represented the School upon the Committee of Management of the Royal Free Hospital.

Sir Walter Fletcher, M.D., F.R.S., delivered the Inaugural Address on October 1st, 1926 at very short notice. The Council offer him sincere thanks for this distinguished service. The School welcomed the Viscountess Elveden on June 27th at the Prize Giving. The Council were glad to be able to offer the hospitality of the School to the Pathological Society of Great Britain and Ireland for its Annual Meeting on January 7th and 8th, and to the University of London for a Course of Lectures given by Professor Beckwith Whitehouse. Courses in Dietetics arranged by Professor Cullis in the Physiology Department have been given to Teachers under the Board of Education and the Berks. County Council.

The Sports Ground at Sudbury has come into use, intermittently only owing to the trying spring and summer which have not been favourable to outdoor sports. Miss Bond has filled the office of Honorary Steward with zeal and distinction, and the Council offer her their warmest thanks. The School is also much indebted to Mr. Alfred Goodman who has acted as Honorary Surveyor. Mr. F. R. S. Balfour generously gave £20 towards the development of the ground and some eighty young trees for planting. The University of London made a special appeal for donations for a University Athletic Ground and Boathouse. A grant of £105 was made from School funds earmarked for a Boathouse on the Chiswick bank of the Thames.

H.R.H. the Duchess of York has graciously permitted the use of her name to the Maternity Centre at 434, Essex Road which now completes its second year's work. A gift of £500 has been received from A. A. towards extension of premises. The Scottish Women's Hospitals Association have generously undertaken to provide the greater part of its maintenance. The

Council express to the Committee of the Centre their cordial appreciation of the excellent facilities there afforded to the students in obstetrical practice.

The Council decided in January last to open a Dining-room for students at the Hospital, the room having been previously built for the purpose in the Alfred Langton Nurses' Home. The initial expenditure amounted to £282 13s. 3d. and the receipts and expenditure for the first seven months appear in the accounts.

The Royal Free Hospital Centenary will be celebrated early in 1928 and in order to raise funds in connection with developments of the Hospital a Fair and other activities were arranged at the School. The Council would greatly welcome donations from friends of the School to the fund which they hope to present to the Hospital.

Many generous benefactions have been received during the session: the Cullimore Bequest included a house which was sold and the amount invested in the Sports Ground Pavilion; the Louisa Lady Goldsmid Bequest amounted in all to £2,108 5s. 3d.; two former students, Dr. Agnes Henderson and Dr. Marion Vaughan bequeathed £300 and £50 respectively; Miss Sarah Clegg has given £1,000 to the School for the benefit of the Pathological Department; £150 was received to endow a prize in Gynæcology in memory of and to bear the name of Dr. Mary Swann, and £52 10s. to endow a prize in Anatomy in memory of and to bear the name of Mr. Walter C. Culverwell. Prizes have been given by Dr. Florence Stoney, O.B.E., £2 2s.; Sir Montagu and Lady Turner, £2 2s.; Mr. Gay French, £2 2s.; Sir W. Davison, M.P., £1 1s.; Mr. Haldin Davis, £1 1s.; Mr. A. G. R. Foulerton, £1 1s. £25 was given by Lady Briscoe for Research apparatus and a number of instruments for Operative Surgery by Mr. Joll, M.S., F.R.C.S.; a Chippendale desk has been received from Miss Rosamund Wigram, and a chair from Mr. Robin Micklethwaite, both formerly the property of Dame Louisa Aldrich-Blake. The Students' Bursary Fund has benefited by £100 from A. A.; £50 from Miss E. Debenham, and £10 from a former student. The Jubilee Endowment Fund now stands at £25,046 3s. 6d. including £2,003 18s. collected in the United States by Mrs. Balfour Duffus.

The Dean represented the School at the Lister Centenary Celebrations and at University College Centenary Celebrations. Dr. Jane Walker represented the School at the National Con-

ference for the Prevention of Tuberculosis, and Dr. Mary Kidd at the Annual Sanitary Congress.

The following appointments in addition to those already mentioned were made: Miss Margaret Salmond, M.D., B.S., to be Third Assistant and Miss Partridge, F.R.C.S., to be Research Worker in the Unit; Miss Lankester, M.B., B.S., to be Resident Assistant Pathologist.

The following Prizes, Scholarships and Exhibitions were awarded during the Session 1926-27:

St. Dunstan's Medical Exhibition—Miss S. C. B. Walker, Clapham High School.

Isabel Thorne Scholarship (divided)—Miss C. L. Taylor, Queen Margaret's School, Scarborough; Miss F. D. Wride, Howell's School, Llandaff.

School of Medicine for Women,
8, Hunter Street, W.C. 1,

October, 1927,

APPEAL ON BEHALF OF THE CENTENARY
FUND OF THE ROYAL FREE HOSPITAL.

1828-1928.

During the 100 years of its existence the Royal Free Hospital has been practically rebuilt, and with the advance of Medical Science it has endeavoured to keep pace with modern needs.

The celebration of the Hospital's Centenary coincides with the necessity of raising money for the following purposes :

- (i) To rebuild the Obstetrical and Gynæcological Unit.
- (ii) To extend the Pathological Department.
- (iii) A new X-Ray Department.
- (iv) To re-house the Venereal Diseases Department.
- (v) New Kitchens and Heating Arrangements.
- (vi) More Private Wards.

It is estimated that the cost of these works will be £110,000.

The development of the Pathological Department, including a Bio-Chemistry Laboratory, will cost about £15,000 and is a matter to which the attention of friends of the School is urgently drawn. Donations may be sent to Sir Alan Anderson, K.B.E., at the Medical School, marked "Pathology Extension."

Donations to the General Fund may be sent to Mr. Albert Levy, Royal Free Hospital.
